

LEXAN™ THERMOCLEAR™ HIGH CLARITY SHEET

Introducing LEXAN™ THERMOCLEAR™ High Clarity sheet grades with a unique wide rib structure, which allows for increased visibility and clear vision when compared to traditional multiwall structures. This specific sheet with enhanced visibility is cost efficient, fire resistant and has a very low weight against other glazing products, which makes it the best candidate for protective partitions, separation walls and screen barriers.

Versatile LEXAN™ THERMOCLEAR™ multiwall sheet for protective glazing applications can be relied upon to deliver high quality, low maintenance glazing that is built to last.

The complete LEXAN THERMOCLEAR sheet range features a proprietary two sides surface treatment designed to protect the sheet against the degrading effects of ultra-violet radiation in natural sunlight and has excellent insulation properties.

High Clarity Multiwall Sheet Structure

Standard Multiwall Sheet Structure

POTENTIAL BENEFITS

HIGH IMPACT STRENGTH
Virtually unbreakable

EASY TO INSTALL
Ease of handling and installation can be cut on site with common tools

EASY TO CLEAN AND DISINFECT
withstands repeated cleaning with common hospital cleaning agents*, IPA solution at 70% in liquid soap and water

LIGHTWEIGHT
Outstanding light weight advantages against glass

FLAME RETARDANT**
Excellent fire performance

COST EFFICIENT
Designed to provide added value performance through potentially low system costs

* For a detailed list of compatible chemicals please contact your Distributor or SABIC contact

** LEXAN™ THERMOCLEAR™ multiwall sheets comply with US and Canadian building codes fire requirements and meets [ASTM E84](#) and [ULC S102.2 - Class A](#) and [ASTM D635 - CC1](#) classifications.
